JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and being more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

The above line of Steamboats runs direct to our Dock, at Buffalo, and all goods contracted by this line for the Upper Lakes will be shipped (unless otherwise ordered or contracted) by *Steamboats,* (not Propellers) with but one, or possibly two exceptions. The Eckford is the only Line not interested in, or committed to, a Propeller Upper Lake Line; and in endeavoring to sustain a line of *Steamboats* on that route, the Proprietors hope to receive the support and patronage of the Merchants of the Western States, when interest demands the continuance of a line of such a class of Boats. Boats leave New York and Buffalo daily.

THE undersigned would respectfully solicit the attention of dealers in and consumers of Coal in Milwaukee to our Card, as above. The Bolivar Coal is unquestionably superior to any other mined in Ohio, for Grate, Blacksmithing, Machinery, or Domestic purposes; and for Steam purposes, is superior to any except Briar Hill. It is peculiarly well adapted to shipping, as its extreme hardness renders it capable of bearing any amount of handling, without waste. It can be afforded considerably cheaper than Brier Hill, and for most purposes, is better.
It is our wish to introduce the article, and we respectfully solicit orders, confident that a trial is only necessary to convince any of the truth of the above assertion.

EMPIRE
INSURANCE COMPANY,
Union Springs, N. Y.
CAPITAL . . . . $100,000.
THE Directors of the Empire Insurance Company feel confident that the plan of Insurance adopted by them will meet with a hearty response from a discerning public. Our Charter and By-Laws require that the applications received shall be divided into two or more classes. Dwelling Houses, and property of similar hazard, only, can be insured in the First Class, excluding Taverns, Work-shops, School-houses, Seminaries, Churches, and other kinds of hazardous property, usually taken in the so-called "Farmers' Companies," or "Farmers' Departments." This will render the EMPIRE emphatically a "FARMERS' COMPANY."
They submit for the judgment of their fellow citizens the following summary of their plan of operations:
1. Policies will be divided into distinct Classes, the funds of each class being kept separate, and each paying its own losses. The notes given in one Class are not liable for losses happening in the other.
2. Any applicant may, at his option, pay a definite sum in full for his insurance, in lieu of giving his note.
3. The First Class to consist of dwelling houses and other farm buildings and personal property therein. Not more than two-thirds of the value of any building to be insured; but the personal property therein may be insured to its cash value.
4. The Second Class to consist of Churches, School-houses, Seminary buildings, Work-shops, Taverns, Stores, Mills propelled by water power, &c., and personal property therein.
5. Not more than $3000 will be taken in one risk.
6. Steam Mills of all kinds, Distilleries, Cotton and Woollen Factories, Powder and Oil Mills, Furnaces, Machine Shops, and other extra hazardous property will not be taken in this company.
7. This Company will hold itself responsible for the correctness of all surveys and other official acts of its authorized agents, thus ending all cavil as to the technical correctness of surveys, and the consequent liability of the Company.
8. Any policy-holder may at pleasure withdraw from the Company by paying his share of the losses up to the time of such withdrawal.
9. This Company will adjust all claims with promptness and liberality, and if at any time a difference shall arise between the parties, the same may be settled by a mutual reference in the county where the loss shall have occurred.
10. Additional Stoves may be set up, or moved from one room to another, without giving notice to the Company; also, such repairs as do not increase the hazard of the property, need not be notified.
11. This Company will pay losses caused by lightning, whether the buildings are burned or otherwise damaged.
12. Should any more money be collected than sufficient to keep the company in a sound condition, it will be returned to the policy holders in proportion as each shall have paid in.
The Directors, in soliciting patronage for the *Empire Insurance Company,* do so in the firm conviction that the plan will be found as CHEAP and SAFE as any company can be made. In arranging their Rates of Hazard, and the kinds of property to be insured in each class, they have sought to secure sufficient cash premiums to meet all losses; laying by the small notes taken as a Reserve Fund, which shall render the Company perfectly safe against all contingencies.
For a more definite and full view of their plan of operations, they respectfully invite an examination of their Rates of Hazard and Classification of Property to be insured.

NEW YORK
MUTUAL BENEFIT ASSOCIATION,
Union Springs, N. Y.
THIS Association is formed for the mutual relief of its members in case of sickness or accident. A careful examination of its principles, and its beneficent objects, is respectfully solicited. The character and standing of the Board of Directors is a guaranty that the money received will be safely preserved, and faithfully devoted to the objects proposed. The progress of HEALTH INSURANCE, within the past few years, in localities where its principles have been understood, and its beneficent results practically seen and felt, is unparalleled.
Men are literally binding themselves together to bear one another's burdens. No kind of Insurance can be so generally useful as that of Health; for most people are dependent upon it as the capital which enables them to procure the means of livelihood. Hence, when by disease or accident this is gone, all is gone; and either an unpleasant dependence on friends, or poverty and pauperism, is the consequence. It is not presumed that disease or the ravages of disease can be prevented; but by a wise forethought, a fountain may be provided, which, when the hand of affliction does come, will soften its asperities, and secure a comfortable support for yourself or family.
Conditions of Membership.
A CERTIFICATE OF MEMBERSHIP will be forwarded on payment of $1,50 Admission Fee, and the first annual deposit mentioned below. Each member will be entitled to a Weekly Benefit during the time disabled by sickness or accident from attending to his ordinary business or occupation. Persons from 14 to 60 years of age, of ordinary health and good habits, may become members on the following conditions:
$2 per year, will draw $2 per week.
$3 " " $3 "
$4 " " $4 "
$5 " " $5 "
$6 " " $6 "
Persons over 50 years of age—
$2,50 will draw $2 weekly benefit.
$3,75 " " $3 "
$5,00 " " $4 "
$6,50 " " $5 "
Twenty-five cents will be charged, in addition, for a renewal of the Certificate. Each member will be furnished with a copy of the Articles of Association, and a monthly report of its financial condition, and of the doings of the Board.

The Banking Law---Rail Road Securities.

Our cotemporary of the Watertown *Chronicle* has not, as we hoped, given to its readers the table which we published, showing the comparative value of Rail Road stocks and bonds in New York. The *Chronicle*, however, seems inclined to admit the facts which we set forth in our article, but is still decidedly opposed to the securities referred to. It opens a leading article as follows:—

The Milwaukee *Sentinel*, in a review of our article of last week on the banking law, says we have "confounded Rail Road stocks and bonds." We are not aware of having done any such thing. In quoting the prices of stocks of different roads, our object—and that we supposed was sufficiently palpable upon the face of our article—was to show the difference between the value of those and state and U. S. stocks, in the New York market, not to "confound stock and bonds." That difference, it will be recollected, was *twenty-one per cent.* in favor of the latter description of securities; and yet as we then remarked, no state in the union, Wisconsin excepted, has ever proposed to authorize a banking business upon less ample securities than these.

The provisions of the banking law on the subject of Rail Road bonds, *appear* to be quite safe enough, and are, therefore, better calculated to deceive the people.

Now we do not pretend to any extraordinary amount of discernment, but we really cannot see what could have been the object of showing "the difference between Rail Road stocks, and state and United States stocks in the New York market," unless it were to prove that, the Rail Road stocks being of less value, they were not proper securities to be received from bankers. If that was not the object, what was it? If that *was* the object, then we were correct in supposing the *Chronicle* to have "confounded Rail Road *stocks* and *bonds*;" unless we are to think that our cotemporary has been conjuring up a man of straw, knowing it to be such, for the mere pleasure of battling against it, and of bringing arguments against Rail Road securities which it knew to be unsound. This we did *not* think, and therefore we said that the *Chronicle* confounded *stocks*, which the Bank Law does *not* accept, with *bonds*, which it *does* accept, as security for issues.

However, as this point is not pressed further, let us see what *is* the objection. The *Chronicle* now thinks that the provisions of the law "appear to be quite safe enough, and are therefore the better calculated to deceive the people." This is somewhat of a two-edged argument, and cuts every way. Carrying it out to its legitimate conclusion, we should congratulate the State upon the fact that the Legislature did not enact any more stringent provisions relative to State and United States stocks, individual bonds and liability, else the Banking Law might have been made so extravagantly safe that, for that reason, no capitalist could by any possibility be induced to invest his money here.

The danger which now stares the *Chronicle* in he face is one which is predicted upon the past character of our Legislation and our State Officers, and is briefly and frightfully sketched as follows:—

We very much fear that the Governor, Comptroller and Attorney General, in their examinations of the roads that may wish to do a banking business under our new law, would "follow the footsteps of their illustrious predecessors"—manifest a decided leaning toward the interests of individuals. Beside, these officers cannot be supposed to have a very thorough practical knowledge of the business of railroad making. To their eyes the roads may appear to have "solid beds," and rails of "approved patterns and weight," when they would not so appear to the eyes of a practical engineer or contractor; and so of other features of the roads. These examinations completed—perhaps upon stomachs stuffed with oysters and heads fired with brandy, it having been abundantly demonstrated that oysters and liquor have a wonderfully mollifying effect upon opposition in certain quarters—"the certificates of actual inspection" are filed, the bonds received, and the "wild cats" forthwith commence their scratching.

So! the picture gives one the honors;—*sic transit gloria mundi!* But don't the *Chronicle* see that, as to the state stocks, we are left to the tender mercies of the same officials. These stocks are to be received at their average New York market rate for 6 months previous (though not above their current rate) and to be, or be made equal to, 6 per cent stock, and—says the bill—"if, in the opinion of the bank Comptroller and Governor, any stocks offered shall be deemed insecure, they shall not be received as such securities."

And is it not—candidly, now, neighbor of the *Chronicle*—is it not "the very error of the moon" to suppose that the Governor, Comptroller, and Attorney General of Wisconsin, will manifest so "decided a leaning towards the interests of individuals," under the potent arguments of "brandy and oysters," as to make certificate that they have actually inspected a railroad, and found it of the requisite length completed and in operation, substantially built, with a solid road bed, and rail of certain weight and pattern—when such is not the state of the road, and when thousands living along the line, and travelling over it, would have the falsehood and perjury of the State officers staring them in the face?

We have hopes of the *Chronicle* yet, when it comes to consider these things calmly.

Gov. Farwell's Veto.

The Madison *Democrat* administers a sharp rebuke to its party yoke-fellow, the Oshkosh *Democrat*, for manfully declaring that Gov. FARWELL had right and reason on his side in vetoing the Martin Contract bill, and makes a fresh onslaught upon the Governor for daring to do his duty in the premises. It is so clear that the opinion of the press and people of Wisconsin *sustain* this veto, that it is not necessary to discuss the question further. We content ourselves, therefore, with copying one paragraph from the *Democrat's* article, reflecting upon the Governor for vetoing the Mortgage redemption bill. It is a fair sample of the demagoguical attacks made upon the Executive by the ultra partisan prints of the State, and shows up the spirit and motives of his revilers in no enviable light. Here is the extract:—

4th. He vetoed a bill extending the right of redemption to chancery foreclosures of mortgages. That bill took away the natural right of the shark to devour the small fish; it extended the hope of redemption to the roof and fireside of the honest creditor, held out a prospect of salvation from utter ruin and sacrifice to the unfortunate man who had voluntarily pledged the "pound" of flesh to save his credit. The Shylocks demanded the bond, and they found a ready and subservient Judge in the Executive.

There never was a Veto more creditable to the Governor, more satisfactory to the People, or more serviceable to the State, than the one thus selected for the anathemas of the Madison *Democrat*. Had this "redemption bill" become a law, it would have inflicted instant and irreparable injury upon the credit of Wisconsin, without affording any permanent relief to those for whose benefit it was ostensibly designed. Gov. FARWELL, in vetoing this bill, entitled himself to the heartfelt thanks of every man who respects the good name and regards the interest of Wisconsin. So manifest, indeed, was the propriety of this executive interference that the very same Assembly which had passed the bill, upon a "sober second thought," *sustained* the Veto by a vote of *two to one!* This single fact outweighs a volume of partisan denunciations.

HOW TASTES WILL DIFFER.—Strange to say the *Commercial* is not only greatly dissatisfied with the letter of Mr. JNO. M. BOTTS to his fellow Whigs in Virginia, but quite put out that the *Sentinel* should be pleased with it. This is unfortunate, very. We liked the letter so much, ourselves, that we were almost in hopes it would prove likewise acceptable to our neighbor. But since that cannot be, we must comfort ourselves with the reflection that it is entirely satisfactory to the Whigs, to whom it was specially addressed, and that it would be equally so to the democrats if they were only of the same mind as Mr. BOTTS touching the next Presidency.

☞ The Steamer Minnesota, from Chicago, arrived at Buffalo on the 14th inst., with one hundred and ten of McCormick's Reapers.

So the West manufactures for the East.

The Lower Law.

We published, some time since, a paragraph stating that in Grayson Co., Va., a Mr. Bacon was ordered to leave the country under suspicion of entertaining notions at variance with the perpetuation of slavery. A neighbor, himself a slaveholder, who ventured to express a doubt of the propriety of those proceedings, was treated to a coat of tar and feathers. The aggrieved individual sought redress in the courts; but Judge and Jury were put to flight by a mob, who assembled around the Court House, fired their guns, and showed a determination to shed blood, if necessary to carry out their intentions.

Subsequently, a mass meeting of the "citizens" was held, at which a series of resolutions were passed, among which were the two following:—

Resolved, That the clerks of our County and Circuit Courts, shall not be permitted to issue any writ or writs from their respective offices upon any memorandum made or sent by any person, for the commencement of any suit or suits against citizens of this county for any act done by them, having for its object the expulsion of abolitionists from the county, or to prevent further dissemination of abolition doctrines among us, if issued, that the Sheriff of this county shall not execute such process upon any such citizens for the cause aforesaid.

Resolved, That all candidates for offices in the gift of the people of this county, be required to endorse these resolutions, and that they agree in writing, to strike from the polls votes of all known abolitionists, and not count them in ascertaining the result of the elections.

There is not a doubt that every one of the gentlemen engaged in the above affair, is horrified at the idea of a "higher law," and disposed towards "finality."

The Railroad.

We are gratified to learn that the grants by Congress of land in Wisconsin to aid in the construction of the Milwaukee, Mississippi and Rock Road are likely to be obtained. With this assistance those Roads can soon be complete, which once done, an impetus will be given to the agricultural interest in the interior of our State which has never before been seen.

Why is not the Milwaukee and Mississippi Road extended to Janesville? The company would find it to their interests to do so. Let them examine the country west of Janesville from the State line north for 20 or even thirty miles, and they will be convinced of the propriety of running their road as near such a section of country as they can consistent with the general plan for its terminus.—*Monroe* (Green Co.) *Sentinel*.

Patience a little longer, and both you and we will have our hopes realized. The section of country mentioned by the *Sentinel* is truly magnificent, in its wealth of wide rolling prairie, good timber, and fine streams. It is only equalled, to our knowledge, by the part of Marquette Co, south of Green Lake, and as to either of them, the sun does not shine upon fairer lands.

COL. BENTON OSTRACISED.—We notice that the Madison *Democrat*, the especial organ of the so-called "Democratic" party in this State, utters a bill of ex-communication against Thomas H. Benton, for his recent proceedings in Missouri. We quote a portion of the article:

Col Benton has announced his intention of running against the regular democratic nominee in his district for Congress. This severs the last link which bound the gallant "Old Bullion" of other days to the democratic party. Thirty years a Senator, he has survived all the moral power once made his name a tower of strength to the democracy. * * * As the trusted advocate of democracy, Colonel Benton could and has done much for the country; but as the stump preacher of schism he is powerless, and will sink into insignificance like Martin Van Buren. Many may regret his fall, but few will be the companions of his degradation.

COMFORT FOR MR. CASS.—The Janesville *Standard* (dem) in an article speculating concerning the probable result of the Baltimore Convention, makes the following favorable allusion to the probability of Mr. Cass' nomination:

And last, and not least, those of the democratic party who opposed him in '48 would pretty unanimously support any other nominee, but we greatly fear some of them at least, will never take much pains to elect him, even if they do not absolutely oppose him. If he is nominated it will be looked upon more or less by them as an unwarranted piece of arrogance, instigated by a spirit of revenge. This view some also will take in Convention.

Taking all thing into consideration, then, we have come to the conclusion that in the first place he cannot be made the nominee, in the second place, that the worst thing for the democratic party that could occur, would be his nomination, was it possible.

KOSSUTH'S ELOQUENCE.—Kossuth closed his admirable speech at the late banquet in Faneuil Hall, Boston, with the following splendid paragraph:

The isolation of old, when every nation fought for herself, and regarded liberty as her exclusive privilege, has given way to the convention that liberty is like the air which we breathe, the common necessity for our whole humanity, which if impaired in one quarter by the pestilential exhalations of despotism carries destruction every where all over the nations, bound by the sacred tie of Christian civilization; and the people of America feels instinctively this law of moral nature, or what else could be the reason of the great lesson which even this banquet here in Faneuil Hall, gives to the despots of the earth. Whilst in ancient times the conqueror was led in triumph through the capitol of the world, and the vanquished chiefs had to pass under the ignominous yoke, it is now the victor for whom public opinion has raised the yoke of ignominy and the vanquished is led to the Capitol, and receives the acclamations of the people. To the conqueror, the spoils, the curse of the present, oblivion forever; to the vanquished, the laurels, the blessings of the nations, the destinies of the future.

A CANDID CONFESSION.—The *Commercial* excuses the large dealings of the democratic press in "romance," on the ground that they have so much to do with "Whig statements and arguments."—We were well aware that our democratic contemporaries always resorted to fiction, when hard pushed for an answer to "Whig statements and arguments," but hardly supposed that they would so frankly "own the soft impeachment."

MICHIGAN CENTRAL RAIL ROAD.—We learn from Mr. WELLS, of Speed's Telegraph, that the Michigan Central Rail Road is completed to Chicago, and that the cars passed over the whole road yesterday. The Morning Train West, which left Detroit yesterday, came through to Chicago last evening. This completes another link of the Iron Chain which is destined to connect the cities of the Atlantic sea-board with the heart of the Great West.

MISSISSIPPI.—The Whigs of Mississippi held a State Convention on the 3d, nominated an Electoral ticket, appointed 21 delegates to the National Convention, and adopted resolutions expressing a preferance for Fillmore for President and Crittenden for Vice President. The Convention was thinly attended.

THE PANORAMA.—Blair's Panorama, which as a work of art has no superior, and for the beauty and originality of its scenery no rival in the world, will be exhibited again this evening at Gardiner's Hall.

The Racine *Advocate* credits the above to us.—We said a good deal for the Panorama, and no more than it deserved, but we did not say *that*.

AN OX OVERBOARD.—Yesterday afternoon a crowded audience witnessing the shipping of some fine oxen on board the Atlantic for Buffalo, (item, fatter than we have in our own market) one of them accidently got overboard and was pretty soon making thro' the watery element for her majesty's dominions.—*Detroit Adv.*

Some of our friend PLANKINTON's fine beef, doubtless. There is more of the same sort here.

CAUTIOUS.—The *Commercial* reproduces, with great gusto, Parson Brownlow's slang about Gen. SCOTT, but protests that it is not responsible therefor. It will be time enough to answer these assaults when Whigs believe, or Loco Focos endorse them. As it is, all sides repudiate them.

FARMS FOR IMMIGRANTS.—A correspondent of the Port Washington *Blade* invites the attention of immigrants to some fine farms in the town of Erin, Washington Co., 28 miles from this city, and plank road most of the way.

MAINE.—Gov. Hubbard has ordered a special election for Congress in the Lincoln District, to fill the seat of Hon. Charles Andrews, deceased. The election takes place on the seventh of June.

FIRST WARD SCHOOLS.

Messrs. Editors:

The Board of School Commissioners have been urgently asked in a strong petition of citizens in the first Ward, to establish another Common School to be located somewhere in the vicinity of the intersection of Mason and Jefferson Streets; and it is due to the Board and the people generally that the facts, upon which the necessity of the School is based, should be made known.

On the first of this month Mr A. W. Hatch canvassed the first Ward, with a view to ascertain the number of children in the Ward, the number of Private or Select Schools, the average number pupils in attendance, and the annual tuition paid to such Schools. The following is the result of his investigation:

Children that draw public money,	2,000
do bet. 15 & 20 that have employment,	500
do bet. 5 & 15 that should be in school,	1,500
do in the 1st Ward public school,	300
do whose parents and guardians send to private schools for want of Common School facilities,	1,200
Private or select schools in the Ward,	14
Average number attending these schools,	997
do coming from other wards and included in this attendance,	200
Residing in the ward, attending schools,	797
Residing in the ward, bet., 5 & 15 years, that do not go to school at all,	403
Annual tuition paid to these private schools is	$10,140,00

In this number of 14 Private Schools, are included St. Peter's Parish School with 90 pupils, which is free, and St. Mary's Parish School with 300 pupils, which is also free to the scholars, being supported by an annual subscription of Six Hundred Dollars, among the friends of the School.

From the aggregate number as above in the Private Schools, deduct the number of scholars in these Parish Schools, and from the aggregate amount of tuition, the amount paid to St. Mary's School, and there will remain 607 pupils, for whose tuition there is annually paid $9510,00.

The aggregate amount of salaries paid to the teachers employed in all the Common Schools of the city is $6,600,00; and the number of scholars now in daily attendance in the Common Schools is about 2,000.

From these statements it will be seen that 2,000 scholars in the Common Schools are taught for $6,600, while $9540 are required to pay the tuition of 607 scholars in a single Ward for the same time; and there is no reason why the Common Schools are not, and may not be just as thorough and efficient as the Private Schools.

The necessity and economy of another Common School in the First Ward must be obvious to every one, and it is hoped that no Commissioner will be ambitious to record his vote against its establishment. J. H.

Sunday and Demoralizing.

Messrs. Editors:—

"A Member" of the Musical Society, which Society by no means styles itself the "German" Musical Society, complains of the same not having consulted the feelings of those who are opposed to musical performances on the Sabbath day, in any other manner than in aid of religious worship. Now, there is no doubt that this society never *will* deliberately hurt the feelings, or even shock the prejudices, of any considerable part, either of their own members, or of the public in general; and so far, the remonstrance of "A Member" may not be out of place. But when "A Member" deems it right to style the feelings and opinions of a large class of his fellow citizens as "demoralizing," only on the ground that the religious denominations to which they are attached consider a certain rule as less important, or less binding, than that denomination may do of which he is a member, we solemnly protest against such intolerance. It is not in question which of the two opinions may be right; but it is a matter of fact, that the largest part of the Christian world, to wit—all the people belonging to the Roman Catholic, Greek Catholic, and Lutheran and even the larger part of the Reformed denomination, by no means accept of the whole mosaic rules of keeping Sabbath; and though the Episcopal, Puritan, Methodist, and other denominations, who abide by more stringent Sabbath rules, may be in a majority in this country, they are not a majority in the Christian world; and it is unbrotherly and intolerant to brand many millions of fellow Christians as "demoralized," merely because their faith does not teach them what your faith teaches you. You are the elder brothers in this country; you may rightfully ask your adopted fellow citizens not to hurt your feelings, and generally to avoid any public violation, or contempt of rules, which are held sacred by you. But beyond this, there is no right nor equity which give you power to condemn your fellow Christians for not believing what you believe. We, the adopted citizens of this country, are very willing to abide by the laws of our new fatherland, and to behave as good citizens and good neighbors to our American brethren. But we need not to be taught "Morals." As good, as wise, and as pious men as Christianity has produced, kindled the light of the Gospel and taught the rules of morals in our country; and we positively repel, and have the right to repel, the imputation that our MORALS are less pure than those of our brethren, or that they should be modelled and judged by rules and ceremonies of *any other denomination*. Let us bear with each other; neither hurting the feelings of another denomination, nor condemning such a one for having other rules and other views than ours; and let everybody, and "A Member" with the rest, bear in mind the injunction of St. Matthew, Chap. VII—1-5. JUSTICE.

ELIZABETH FRY, the Christian Philanthropist; Philadelphia American Sunday School Union.

Who has not heard of the exhaustless benevolence, the wide-extended labors, and lovely example of Mrs. Fry? Singularly gifted in person and in mind, sought after and caressed in the gay, aristocratic circles where her lot was cast, she yet, in early life, rose superior to the allurements of a selfish, worldly ambition, and gave herself to doing good to others, till this became the ruling passion of her soul. Hers was a pure, earnest religion without fanaticism, the light of which beamed, not fitfully, here and there, but unvaryingly as the sunlight from heaven. Whether, amid the gloom of the felon's dungeon and the maniac's cell, whether in regal halls where Europe's noblest sovereigns were fain to yield to her sublime heroism in an unsought homage, or whether we contemplate her amid the quiet scenes of domestic life, surrounded by her numerous and well trained family, we see her, the true Christian woman, ever characterized by the same unassuming simplicity, calm dignity, and sweet, chastened devotion to her great life-purpose of blessing human ills.

"How much with humble faith and purpose true,
The loveliest daughters of our land may do."

That others may be induced to procure this little volume, to listen to the inspiration of its teachings, and to follow in the path which an enlightened conscience may mark out for them, is the object of this imperfect notice.

THE SUNNY-SIDE; or, The Country Minister's Wife—Philadelphia American Sunday School Union.

This charming little New England tale, which has, for some time, been the subject of varying comment among Eastern readers and reviewers, is, at length, presented to the Western public.

That the story is simply and admirably told, that the incidents are touching, beautiful, and, for the most part, truthful in their character, is conceded by all;—and, doubtless, when the forthcoming "Shady-Side" shall appear as its counterpart, portraying the characteristic circumstances which do not appear in this narration, all will be fully satisfied. It is destined to find numerous readers, and we cannot but believe its mission is one of hope and gladness to an important and interesting class of every community. We commend it especially to the attention of young ladies, desiring that Wisconsin, as well as New England, may furnish many such characters as the "star-actor" in this delightful little drama.

The above works may be obtained at the Sunday School Depository of J. W. VAIL, Spring Street. A.

The People's Festival.

Our German friends are making great preparations for celebrating on the 31st,—a week from Monday—a holiday for the people. It is a praise-worthy attempt to bring together at one time and place people of all classes and conditions, in the enjoyment of pleasant intercourse, healthful games, music, &c. &c., and thus perpetuate in their adopted country an interesting custom of their fatherland.

They have already extended a cordial invitation to all of our citizens to unite with them, and have just forwarded to Gov. Farwell and the other State Officers, an invitation, with the following copy of which we have been furnished;

Dear Sir:—

The German Citizens of Milwaukee, with a view, if possible, to introduce and acclimate here the beautiful custom of popular festivals, in which all classes and ranks of men participate freely and without restraint, have determined to make the experiment on the 31st instant, in this city. The entire population of the City and State, without respect of birth, nationality, or political or sectional sympathies, or prejudices, are invited to participate.

In the name of the Committee of Arrangements, we have the honor to extend to you an invitation to participate with us in these truly republican festivities, and we take the liberty to express the hope that, if consistent with your official and other duties, you will accept this invitation.

With assurance of the highest consideration, we have the honor to be, yours, &c.,

AUGUST KRUER,
JOSHUA STARK.

Piano Forte Factory.

MR. JAMES BLACKHURST, whose advertisement will be found in this morning's paper, has commenced the manufacture of Pianos in this City.—Mr BLACKHURST is an experienced and skilful workman, having learnt his trade and labored for several years in two of the best Piano Forte factories of London and Paris. He has resided five years in this city, engaged in the work of tuning and repairing Piano Fortes and other musical Instruments and in *getting ready* to manufacture Pianos. To do this, he has been obliged to fashion and make all the necessary tools and models; to purchase and prepare his wood, and to collect the various materials essential to the manufacture. This has been accomplished at no small expenditure of time, labor and money, and now Mr. BLACKHURST is ready for work and solicits orders. We paid a visit to his workshop, a day or two since, and were exceedingly interested in the various processes incidental to piano-forte making; all of which Mr. BLACKHURST explained and illustrated with the clearness and facility of a man whose heart was in the work.

MR. BLACKHURST has just completed a Boudoir Piano, which is not only a very good instrument, but a handsome piece of furniture; occupying but small space, and easily moved about a room. Compared, too, with other Pianos, the price ($150) struck us as very reasonable. The workmanship is certainly admirable and, as well as MR. BLACKHURST's "curiosity shop," is richly worth a visit.

Henry Fritchie *vs.* Andrew Nelson, et al.—Proof of publication and decree filed. McGregor & Tenny solicitors.

The State *vs.* Charles H. North, et. al. Indictment for keeping house ill fame. Defendant recognized to appear at September term and was discharged from custody.

TROUBLE.—There was a serious difficulty yesterday evening between the Canal Company and the proprietors of the Empire Mills, the one party, with numerous assistants, seeking to fill up the race, and the other to clear it out. Sundry arrests were made. We did not learn the particulars.

GOLD WATCH LOST.—One of the members of Eng'ne Co. No. 5, lost an old fashioned gold watch in returning from the fire on Thursday last. The Company returned thro' East Water St. The finder will much oblige the owner, and be liberally rewarded, by leaving it at Mr. Noyes' store, No. 241 East Water Street.

CHICKEN STEALING.—A man by the name of Jno Hatch was yesterday arrested by officer DAVLIN for stealing chickens from Mr. De Wolf's yard in the First Ward. He had bagged some seventeen chickens, which he was taking to market. Upon being carried before Justice WALWORTH, and the theft established beyond dispute, the culprit was sent to the County Jail for three months.

CRICKET.—There will be a game of Cricket this afternoon at 3 o'clock in the field north of Spring street, beyond the brow of the hill.

We hear, by the way, that a challenge has passed between our Milwaukee Union Cricket Club and the Cricketers of Lisbon, Waukesha Co., and that a match will come off shortly.

"PEOPLE'S FESTIVAL."—A meeting of the Vigilance Committee and Committee of Arrangements for the "Great People's Festival" to be celebrated in this city on Monday 31st of May will be held *this* evening at 8 oclock at the house of THEODORE WETTSTEIN, on Market Square. A punctual attendance of the Members is earnestly invited.

GAS LIGHT COMPANY.—At an election for Directors of the Milwaukee Gas Light Company, held last Tuesday, the following gentlemen were chosen, viz: Messrs. JAMES H. ROGERS, ALEXANDER MITCHELL, JAMES KNEELAND, D. P. HULL, JOHN LOCKWOOD. At a subsequent meeting of the Directors, JAMES H. ROGERS was elected President of the Company.

THE FAKIR.—This magician, of incomprehensible feats and unpronounceable name—*Predestigadore* for instance—is to be here in about a week.—One branch of his art he understands to perfection—that of keeping himself before the people.

THE KUNKELS.—Kunkels' Nightengale Troupe, who have been performing in the cities on their way from the far East, singing and gathering quarters and applause, will be along here on Monday, and perform three evenings at Gardiner's Hall.

ÆTNA INSURANCE COMPANY.—Mr. W. J. WHALING, Phœnix Buildings, is agent for this substantial old company, which has stood the severest tests of many years, and is all right still.

SHOWS AND SHOWMEN.—A very good Ordinance relative to shows and Showmen, passed at the last meeting of the Common Council, will be found in our columns this morning.

The Presidency—Electoral Vote.

It has been virtually settled in Congress that both South Carolina and California shall have a Member of Congress on their several fractions—the letter of the law giving it to Carolina and the spirit to California. This increases the whole number of Members to 234, and of Presidential Electors to 296, making 149 necessary to a choice —148 being a tie. The Electoral Vote of each State, under the New Apportionment, as compared with that of 1848, will be as follows:

States.	1852.	1848.	*States.*	1852.	1848.
Maine	8	9	Ohio	23	23
N. Hampshire	5	6	Indiana	13	12
Vermont	5	6	Illinois	11	9
Massachusetts	13	12	Iowa	4	4
Rhode Island	4	4	Wisconsin	5	4
Connecticut	6	6	Michigan	6	5
New-York	35	36	*Kentucky*	12	12
New-Jersey	7	7	Missouri	9	7
Pennsylvania	27	26	Alabama	9	9
Delaware	3	3	*Louisiana*	6	6
Maryland	5	8	*Tennessee*	12	12
Virginia	15	17	Mississippi	7	6
North Carolina	10	11	Arkansas	4	3
South Carolina	8	9	Texas	4	4
Georgia	10	10	California	4	0
Florida	3	3			
Total				295	290

We have marked in *Italics* the fifteen States that went for Taylor in '48, giving him 163 votes to 137 for Cass. The same States would now cast 160 votes, or 12 more than a majority. Illinois and Missouri each gain two: Massachusetts, Pennsylvania, Wisconsin, Michigan, Mississippi and Arkansas gain one each; New Hamshire, Vermont, New York, North Carolina and South Carolina each lose one, and Virginia loses two. The other States have the same number of Members and Electors as before, and California is added to the number.—*N. Y. Tribune*.

American Bible Society.

We make the following extracts from the Report of Mr. Lord, the Agent of the American Bible Society for the Northwest:

We have operated from the beginning, through the medium of auxiliary and branch societies.—The number has been increased from year to year until there are forty-four societies auxiliary to the American Bible society, and about three hundred and ninety-four branches to these auxiliaries. Connected with these are the same number of Bible Depositories, so arranged that but few places are more than five miles from one of them.

"There are also connected with these societies, not far from 3,500 local agents, all of whom have specified fields in which they are expected to raise funds and circulate the Scriptures.

"During the first year, the amount raised from donations and sale of books, was about $6,50, & the number of Bibles and Testaments circulated, about 15,000. Second year, funds raised about $8,000, books circulated, 20,000.

Third year	$11,150.	Books cir.	25,000.
Fourth "	11,500.	"	27,000
Fifth "	15,000.	"	33,000.
Total,	$52,153.		120,000.

"Of the amount raised about $30,000 has been from donations, and the remaining $22,450, has been from the sale of books. Of the $30,000 contributed to the cause, $22,404 44, have been expended on the field and $7,595,56 given to the American Bible Society, to aid in supplying other places. The donations to the Parent Society have been as follows:

First year,	$933 75
Second "	1,695 54
Third "	1,618 58
Fourth "	1,061 67
Fifth "	2,263 02
Total,	$7,595 56

"While a few of the societies have made donations to the American Bible Society, amounting in aggregate to the sum above named, others have received aid from that institution, so that on the whole we have done but little towards supplying the millions abroad who have no Bible.

"In supplying counties for the first time, we have generally found about one-sixth of the families without an entire Bible, and about one half of the readers under fifteen years of age, without testaments.

"After 120,000 copies, or about 60 tons of Bibles and Testaments have been circulated, it would be surprising if the destitution were not materially diminished.

"The report for the past year in detail, is as follows:

Funds raised in Northern Illinois,	$8,610 31
do Wisconsin,	5,968 06
do Minnesota,	421 63
Total,	$15,000 00
Books cir., in Northern Illinois,	21,000
" Wisconsin,	11,700
" Minnesota,	300
	33 000
Donations to the Parent Society from Northern Illinois,	$1,414 28
" Wisconsin,	559 88
" Minnesota,	288 86
Total,	$2,263 02"

FACTS FOR THE PEOPLE.

Henry C. Carey, one of the best informed and ablest writers on political economy now living, has contributed to that excellent periodical, "*The Plough, the Loom and the Anvil*," a paper worth five times the subscription price, and which will place in the hands of every man, capable of thinking for himself, the means of forming a correct judgment on some of the most controverted points of national politics. It is an elaborate and careful review of the speech of Hon. Robert Rantoul, in favor of the free trade tariff of 1846, and exposes his estimates and figures to the world, as containing false statements, and suppressions of the truth.

The writer does not accuse the Hon. gentleman of giving currency to false statements intentionally, but supposes him to be misled by the *fraudulent tables* and *lying facts*, systematically put forth by such papers as the New York *Journal of Commerce* and the Washington *Union*. We give the summing up of Mr. Carey's able and conclusive argument in favor of protection, and ask for it the careful perusal of our readers:—

Under the Tariff of Eighteen Hundred and Forty-Two

We built mills and created machinery that enabled us, in less than six years from the date of its enactment to increase the consumption of cotton from 267,000 to more than 600,000 bales; and to increase the consumption per head from seven to thirteen pounds, with every reason to expect that it would soon reach twenty pounds, to the great advantage of the producer of cotton and the consumer of cloth.

We built mills and created machinery that enabled us, in six years, to increase the domestic manufacture of woolen cloth from fifty-five to eighty-five millions of pounds.

We opened mines and built furnaces that enabled us to increase the domestic production of iron from 200,000 to more than 800,000 tons, and to increase the consumption per head from thirty eight to ninety-eight pounds per head.

We built rolling mills that enabled us to commence the manufacture of railroad iron, and to extend it in that brief period to almost 100,000 tons.

We increased the production of lead from 520 to 800,000 pigs; that of hemp from 14,000 to 60,000 bales; and that of wool from forty-eight to seventy millions of pounds.

The *manufacture* of corn and hay into pork and beef, butter, cheese and lard, was extending itself at a rate unexampled in the world; and the value per ton of the exports from the west to the east was steadily advancing.

We thus made a market for more cotton, and yet had more to export; and the tariff of 1842 that found prices lower than they had ever been before, left them already advanced one-fourth, with every reason to expect that they would soon be permanently fixed at a higher standard than had been known for twenty years.

We thus made a domestic market for food, to be consumed by the growers of wood and of hemp, and the producers of cloth and iron, coal and lead, to the annual extent of more than one hundred millions of dollars, and yet our exports rose from fourteen millions in 1841-2 to twentyfour millions in 1845-6.

We consumed more fish and exported more, more rice and exported more, more naval stores and exported more, and the prices of all these things rose, the tariff of 1842 leaving them all much higher than it had found them.

We produced more and consumed more of every thing; the condition of the people steadily improved; the credit of our banks and that of the State and general governments were restored, and there was a degree of quiet prosperity such as had never before been seen in any portion of the world. Confidence in the future prevailed throughout the whole range of society.

Under the Tariff of Eighteen Hundred and Forty-Six.

We have closed cotton mills, and driven down the manufacture of cotton from 600,000 to 467,000 bales, and have, in the last three years, decreased the consumption of cloth, foreign and domestic, per head, twenty-five per cent.

We have closed woolen mills, and have, in the last three years, diminished the consumption of cloth, foreign and domestic, twenty per cent.

We have closed mines and furnaces, and have diminished by fifty per cent the production of iron; and the consumption of iron, foreign and domestic, has fallen from ninety-eight to seventy pounds per head.

We have closed rolling-mills until we have almost annihilated the manufacture of railroad iron, and destroyed the competition of the sale of an article so necessary for the cheap transportation to market of our products.

We have diminished the export of lead from 800,000 to 300,000 pigs; and that of hemp from 60,000 to 19,000 bales; and the products of wool at least ten million of pounds.

The manufacture of corn and hay into pork and beef, butter, cheese and lard, declines daily, and the value of exports from the west to the east has fallen from *sixty-two dollars* per ton in 1845 to *forty dollars* per ton in 1851.

We have thus diminished the market for cotton, and have placed ourselves under the necessity for exporting more, the consequence of which is seen in the fact that it has fallen even below the price of the revenue tariff of 1840-2—then the lowest that had ever been known, with a certainty of great further decline, should the crops prove large.

We have diminished the western market for food to be consumed by the growers of wool and hemp, and the producers of cloth and of iron, coal and lead, and that diminution cannot be estimated at less than fifty millions of dollars per annum; and yet our ability to suply food to the world declines from year, to year, as the manufacture of corn and hay into pork, beef, butter, cheese and lard, declines, as we become more dependent upon foreign nations for wool and hemp, lead, cloth and iron.

The import of fish now exceeds the export, that of rice has fallen in both quantity and price, and that of naval stores has increased in quantity while it has declined in amount.

We produce less of every thing, and the consumption of all articles of necessity is gradually declining, proving a steady deterioration in the condition of our people. We are running in debt to foreign nations for articles of luxury.—Speculation is every where and *confidence is no where*; for every man feels that the events of each successive year are bringing us nearer and nearer to a convulsion similar to that which has rendered memorable the period of the revenue tariff of 1840-2.

The "Fakir," again

This wonderful necromancer assumes, Proteus-like, as many shapes as characters. We hear of his actually performing in the market the other morning, the following experiment on an egg man:—

"What's the price of eggs?" asked the Fakir, of a broad-brimmed countryman.

"Eight cents a dozen, if you want a single dozen."

"I only want one," says the Fakir, "will you take five cents for one?"

"Go away, Mr., don't bother me, I want to sell my eggs."

"I'll give you five cents for this one," replies the Fakir, coolly picking up an egg.

"Well, if you're such a fool you may take it."

The Fakir gave him the five cents; took out his knife and cracked the egg, and out rolled ten or twelve half Eagles. Placing them in his pocket—"I'll take another," says the Fakir, giving the man another 5 cent piece.

Cracking the next, out rolled as many more.

"I'll take all them eggs," says the Fakir.

"No you don't," says the man, covering his coat-tail over the basket, and making tracks away for home in such haste, that expert boys could have played marbles on his coat-tail, it stuck out so hort.

We have not heard the result, but rather guess that it the country broker opened his eggs, he did not find much else, than the yolk and white and shell.

Appleton.

We passed hurriedly through Neenah and Menasha, making no stop till we reached Appleton. We had not visited this place before for two years, and the improvement we saw on every side, we were wholly unprepared to find.—This is a continuous village from the head of the rapids at Grand Chute, down nearly to the foot. It is laid out in three different plats, by different proprietors, *Grand Chute*, at the head, by Messrs. Martin, Bowen, and Conkey; *Appleton* lying adjoining it below, by the proprietors of the Lawrence University, and *Lawe's-burg*, lying still below, adjoining, by Mr. G. W. Lawe, the Sub Indian Agent. But to the world, and every body away from there, it is all Appleton, and all one village. Whatever small rivalries there may be at present, the whole locality will eventually have one common interest, and be known only by one name.

At the upper town there are three saw mills, and we saw two other buildings, evidently manufactories of some kind, though we did not enter them. Lower down there is another sawmill, a sash and blind factory, and a large building erected for an edged tool factory. Below this we saw a long race excavated, which we were informed was for a flouring mill.

Of the growth of the towns we will only speak generally, that they far exceeded our expectations. Appleton has become a populous, thriving village, and is having a steady accession, which will insure its prosperity. The buildings are of a better and more costly class, than is usual for new, embryo towns.

The Preparatory Department of the University Buildings is completed, and the school is in a prosperous condition.—Cor. of *Oshkosh Democrat*.

COLORED VIEWS OF THE PRESIDENCY.—*Sambo*—"I say, Cuffee, what Lane is dis our dimmercrat friends talk of runnin for President? Is it old Lundy's Lane?"

Cuffee—"Oh no, you stupid nigger; it is the Lane that led away from Buena Vista!"

A sample of this flour has before been tried in this market, and pronounced of very superior quality. The trade from this river opens promisingly. The Enterprise reports the Wisconsin river falling fast.—[Galena Adv.

CORN.—The Laporte County Whig says it has been told by the farmers in its vicinity that much of the last year's crop of corn, has been so badly injured by the severity of the past winter, that it will not vegetate; the germ of the kernel appears to be shrunken and dead. We notice complaints of the same kind in many of our exchanges in different parts of the State, South as well as North.—[Detroit Advertiser.

STEAMBOATS.—The Steamer Enterprise arrived from Galena on Sunday last, and left for Galena on Monday.

"WILL IT KEEP?"

DR. STORM'S CELEBRATED SCOTCH COUGH CANDY.—This is the only Medicated Candy in the United States that will not impair by exposure to the atmosphere. Merchants would do well to bear this in mind when making their purchases When any loss is sustained from dampness, the proprietor will bear it.

Hundreds of members of the medical faculty, have expressed their approval of a compound of this nature, where sugar is the vehicle instead of alcohol—and they have not only used it themselves, but prescribed it for their patients adult and juvenile.

Price, One Dime per Roll; 3 Rolls for 25 cts or $1 per doz. A liberal discount made to Country Merchants.

The Candy is neatly put up with directions for use. A handsome engraving of the Scottish Coat of Arms, and the written signature of Hamilton Wade, (proprietor, is on the outside wrapper of each roll and package.

HOOFLAND'S GERMAN BITTERS.

THESE celebrated Bitters prepared by Dr. C. M. Jackson, 120 Arch-st, Philadelphia, are performing astonishing cures throughout the whole country. We can bear witness to their curative powers in the case of a friend of ours who had the Liver Complaint, and who had tried almost every other medicine, but without effect. After taking a few bottles of these Bitters he was entirely cured. To those who are similarly afflicted we recommend them to take the preparation, knowing that they will cure the disease spoken of, and many others to which flesh is heir to. There is a spurious article made in Philadelphia. The only place to get the genuine article is 120 Arch-st., Philadelphia, of Jackson, or his agents throughout the country.

A CHALLENGE

In the Sum of $1,000.

"THE excellence of a pudding is only found out by eating," and so is the superiority of a safe only known by testing it. The following challenge has been published in the New York papers since Nov. 10, 1851, and no one has yet dared to accept it—and this together with the fact that in the five hundred accidental fires in which these *Salamanders* have been tried, there is not an instance where their contents have been injured.—They were placed in competition with thirty different kinds at the World's Fair, and received the only premium given. All sizes of these celebrated safes may be found at 87, 89 and 91 East Water street, Milwaukee, at the manufacturer's prices.

A Challenge in the Sum of $1000.

To all Safe Makers in the United States who do not make or infringe upon WILDER's Patent, a right which I have enjoyed and furnished to the Public with all the improvements since it was first patented. The result of several former trials, when fairly tested with other safes, and the numerous accidental fires which have brought them in contact with other safes, has deservedly placed the SALAMANDER SAFE, manufactured by me, far ahead of all similar protectors. In order that the public may have a further opportunity of judging whether their verdict as rendered in favor of MY SAFE has been a correct one, I propose another fair and impartial trial upon the following conditions:

FIRST—A committee of respectable citizens to be selected (as may hereafter be agreed upon) to conduct the trial.

SECOND—Each party accepting and entering upon terms in writing, to furnish said Committee with a given number of names of parties who have purchased their safes and now have them in use.

THIRD—The Committee to select one of each Maker's, of corresponding size, so that the Maker cannot be allowed to manufacture one expressly for a furnace or blow-pipe heat, as such suspicion has always attached itself to all premeditated tests of Safes.

The public are not interested to know who can make a Safe to stand a blast-furnace or a blow-pipe best the longest. But it is of vast importance to the whole commercial world to know who furnishes those which prove the best in a natural, accidental fire, such as one would be subjected to in the burning of a store, house, factory, or other building.

FOURTH—The Committee to conduct the fire and render a report in writing for publication.

SILAS C. HERRING.

Revolution in New Mexico.

The Washington *Telegraph* publishes the following in reference to the revolution in New Mexico:—

Private despatches were yesterday received from New Mexico, *via* St. Louis, to the effect that a revolution was anticipated, and that Gov. Calhoun, who is convalescent after a protracted illness, had availed himself of such Military assistance as could be procured, to resist and quell any opposition to the law.

The despatches from Gov Calhoun portend serious trouble. Volunteers were being raised to subdue the rebels and preserve order.

INHUMAN.—A brute by the name of Daguerre, who had resided in this place for a year past, one night last week shipped his goods and family, all but one daughter, an amiable young lady, on board a propeller for the east. She is in the last stages of consumption, and when he left, he turned her out into the middle of the street in the dark night, with her little trunk of clothing, to shift for herself. A kind neighbor took her into his house to stay until some suitable provision can be made for her. Her inhuman father has made his course for Canada. PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S

GREAT DYSPEPSIA CURER!

THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analagous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr John W Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed —but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER,

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle,

☞ Observe this.—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicines.

THE WORLD'S FAIR
PREMIUM SAFES.
DEPOT,
Green Block, Water St.,
(Between Maiden Lane and Wall Street,) NEW YORK.

THE SUBSCRIBER PLACED HIS FIRE AND BURGLAR-Proof Iron Safe in competition with the whole world at the great Exhibition in London, for which an impartial jury awarded a medal.

The American Fair, held last fall at Castle Garden, also awarded to him a gold medal for the best Fire-Proof Safe, and he has never failed to obtain the highest premium when his Safe has been put in competition with others for that purpose. Certificates have been received from the following well-known mercantile houses, who have had their books, papers and money preserved in these superior Safes within the last thirty days, (and can, with many others, be seen at my store,) viz. Messrs. Stillwell & Montross, and Mr. J. L. Watkins, in the Fulton Street fire; Messrs. Fisher & Robinson, and Messrs. John Lockwood & Co., in the great fire corner of Liberty and Nassau Streets, and Messrs. Proud & Bowman, in Jersey City.

I am the proprietor of HALL'S PATENT LOCK, which obtained a medal (in the name of Adams & Co., Boston,) at the World's Exhibition, and is considered the best Lock for the price, ever invented, being proof against powder, and the Key is no larger than a cent, and can be made changeable.

I invite all purchasers to a close and careful investigation before purchasing, and decide for themselves, who makes the best Fire, Burglar and Damp-Proof safes combined.

ELEVEN SAFES of different makers consumed, with their contents! The Safe made by Rich & Co. defied the flames and brought out its contents without a mark of fire upon them!

MR. GILBERT'S LETTER.
THE FIRE IN FLETCHER AND PEARL STS., NEW YORK.
New York, Dec. 20, 1851.

Messrs. STEARNS AND MARVIN, successors, to C. RICH & Co., No. 146, Water street, New York—Sirs, when the fire was consuming my place of Business, No. 216, Pearl Street, I was absent in Rensselaer County, testing a new cleaning apparatus in connection with my Excelsior Thresher, and did not read the account until I was fearful it was too late to save my books which were placed in one of your safes, purchased from Mr. Marvin some years ago. My fears were not allayed when I found it necessary upon my return to apply the Croton Water 40 hours before I was enabled to commence operations; after which it required 51 hours of labor and application to raise the Salamander from its ashy bed. You may judge of my anxiety during this delay, and my agreeable surprise upon opening the safe in the presence of a number of gentlemen, to find my books and papers saved, and as legible as they were previous to the fire. The intense heat to which the Safe was subjected, can be conjectured from the condition of another safe, (not a Salamander) of which an iron skeleton frame only remained, and not a vestige of a book. They were companions in the same office, on the second floor, from which they fell upon crates of earthen ware in the cellar, the ruined safe upon the Salamander. If their position had been reversed, not even the skeleton would have remained. My loss over the insurance is $1,930, yet the salvation of my books in your Salamander, with the representatives of $100,000, and important documents which could not be duplicated, has fully compensated me.

It will afford me great pleasure to exhibit the new safe purchased of you, and explain its merits, at my present office, No. 251 Pearl street, where I shall remain until the new building, No. 216, is erected.
Yours respectfully, JOSEPH G. GILBERT.

The undersigned invite country merchants and those interested in the preservation of their books from fire, (but particularly those having Rich's safe in use) to call at the depot 146 Water street, New York, to see the inferior of Mr. Gilbert's safe with the books undisturbed, which he has kindly permitted to remain for the satisfaction and gratification of the public.

Orders for Burglar Proof Vaults, and Vault Doors, promptly and faithfully executed.

MISCELLANEOUS.

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty-eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON.
May 19, 1849. Philadelphia."

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

REMOVAL.
P. W. BADGLEY,
HAS removed to his New Stores, four doors north from his old stand, at **Nos. 103 & 105, E. Water-st.,** where he has on hand a very heavy stock of GROCERIES, and would invite those wishing to purchase goods in his line to give his stock an inspection before purchasing.

It has not only been the aim of the subscriber to sell as low as any other similar establishment in the West, but to convince purchasers that he can and will sell as low as Jobbers of Groceries in New York—and why not? The subscriber has been engaged in the Wholesale Grocery Business in New York for six years prior to opening in this market. His experience and facilities enable him to buy from the same parties the Jobbers of New York buy from. He will hold himself in readiness to duplicate any retail merchant's purchases in New York—adding necessary expenses.

His stock on hand consists in part as follows:
90 hhds Brown Sugars, various grades.
110 bbls Clarified Sugars.
50 bbls Crushed and Ground Sugars.

HAWKINS'
STAVE DRESSING MACHINE.
PATENTED JULY 22, 1851.

THIS machine is now in successful operation at the shop of Wm. Hawkins in this city, and will dress Staves for
Packing, Flour and Whiskey BARRELS,
and PIPES or HOGSHEADS, at the rate of
600 Whiskey or 800 Flour Barrel Staves PER HOUR,
straight, winding or crooked. In fact, any stave that can be worked by hand will be dressed by this machine, either for tight or slack work, from 22 inches to 72 inches in length of any reasonable width, and to any requisite bilge, and in the most perfect manner. The stave passes through the machine a single time, is dressed by rotary cutters, and is then ready for the truss hoops. The dressing of the sides and jointing of the edge of the stave is performed perfectly. The machine is made of iron, is strong and durable, and is not difficult to keep in good order for use. Six horse power is sufficient to drive the machine with all the speed necessary.

The Subscribers having purchased of Wm. Hawkins the patent right for the United States are prepared to sell rights for States, Counties, or for running single machines and to furnish and set up the machines, warranted to perform perfectly. In the great saving of expense of transportation of dressed over the rough stave, the rapidity and perfect manner with which it performs its work, consists the value of this machine.
Satisfactory testimonials can be furnished if desired.

Yet, to the lovers of nature and a quiet summer residence, the house has many attractions besides its Water-cure, for Nature has indeed been lavish of her gifts on the town, and the walks and drives in the vicinity.

G. GRÆSSLE'S
PRESSED, FIRE-PROOF TILING.
CERTIFICATES OF RECOMMENDATION.
BY the present, I attest my entire satisfaction with the roof of my house, covered with the pressed, fire-proof Tile, invented by Mr. Græssle; having found them perfectly secure during snow-storms, rains, wind and intense cold. I hereby take occasion to recommend said roof covering to every house-builder, inviting them to satisfy themselves by occular inspection of the excellent quality of the same.
ENNO MEYER,
Druggist, 374 W. Water-st., 2nd ward.
Milwaukee, Feb. 3, 1852.

The above I found true in every respect, as to the roof of my house, covered with the same tile, invented by Mr. Græssle. AUGUST KRUG,
Brewer, Chestnut-st., 2nd ward.

The undersigned, having carefully examined the pressed roofing Tiles, invented by Mr. Græssle, have found them perfectly answering the purpose intended. Their practical and sagacious construction recommend this kind of Tile, not only as a fire proof and perfectly water-proof covering, but above all for its durability. The ridges and channels not only exclude the entering of snow or rain-water, but, by their firm and precise joining of one into the other, they give to the single Tile as well as to the whole covering an absolutely moveable position and an intimate connection. Besides this, Mr. Græssle's method of burning the Tiles, deprives them of the injurious tendency to absorb water, making them in this way durable; and joining to the above another virtue, viz. that of dispensing with repairs. The undersigned therefore consider ourselves fully justified in recommending to the building community the above roofing Tile as an excellent and valuable material.
OTTO SCHWARTZ, } Architects
VICTOR SCHULTE, } & Builders.
Milwaukee, Feb. 5, 1852.

To G. Græssle:—I have examined the Roofing Tile made by you, and have no hesitation in recommending them to general use, and particularly as a fire-proof roof.

GRIST MILLS.
THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.
In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
DOUBLE OVEN COOKING STOVE,
(Which received the First Premium at the State Fair, lately held at Janesville,)
Possesses great advantage over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.
The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.
The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.
The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.
The RADIATOR is the best coal stove ever got up as a retainer of heat.
Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.
Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a
"Conformateur,"
from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.
Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.
We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.
Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.

PATENT MEDICINES

Graefenberg Medicines
HAVE YOU USED THEM?
AS popular medicines, prepared carefully and scientifically, and adapted to the wants of the American public, they have no superiors. They are emphatically what they are represented to be, *genuine*, and free from *Humbug*, intended as much to *cure* as to *sell*. When once used, they are universally relied upon, and no *Family* should be without these truly valuable aids to *Health*. In many instances the *regular faculty* recommend and use them, such is their force over the prejudices of those so generally opposed to the circulation of POPULAR MEDICINES. No *Family Physician*, in ordinary cases, is needed by those who own the *Graefenberg Manual of Health*, and strictly abide by its directions in the use of the medicines.
A word to the wise is sufficient, without the publication of certificates, which we have of the most flattering description always open for the inspection of the incredulous.
We will enumerate in conclusion the various preparations of this Company, which may be found in every town in the State throughout the Union.
THE GRAEFENBERG SARSAPARILLA, is purely vegetable, no *big bottle humbug*, or pleasant drink, but *as it should be, a Medicine* of the greatest power in promoting an entire change in the system, by eradicating those impurities of the blood which are the seeds of almost incurable disease in man
THE GRAEFENBERG DYSENTERY SYRUP.—Public approbation has stamped upon it the character of *perfect*. It has checked the ravages of *Cholera* in its last stages, and for bowel complaints it has no equals.
THE GRAEFENBERG VEGETABLE PILLS, are particularly valuable for the prevention and cure of *Fevers* in general. They act gently, naturally and surely and in connection with our *Health Bitters*, are a certain and speedy cure for the Fever and Ague. The *Bitters* have a wonderful effect in invigorating a debilitated system.
THE GRAEFENBERG GREEN MT. OINTMENT.—In reducing inflammation, healing burns, bruises, and all injuries to the body, we can confidently recommend this salve to all as being most efficacious. In the *Mineral Region* of our State its merits are universally appreciated.
THE GRAEFENBERG EYE LOTION—An unpretending article, but one which meets with large sales in the West, and has been the humble means of relieving thousands from intolerable pain arising from injured or diseased eyes. Try it.
THE GRAEFENBERG UTERINE CATHOLICON.—This is perhaps the most valuable medicine of this Company, inasmuch as it reaches cases despaired of by the most scientific physicians. For *Prolapsus Uteri*, and all complaints incident to *Females*, it will be found a safe and speedy remedy. Let no *afflicted woman* be deterred by delicacy or prejudice from giving it a fair trial. Inquire of the agent for the pamphlet in relation to it.
THE GRAEFENBERG PILE OINTMENT, CHILD'S PANACEA, &c., are all invaluable remedies, directions for which and all the medicines are attached to each.

THE HUMAN FRAME
Is the most perfect masterpiece of mechanism in the universe. Every artery, muscle, ligament and bone, exhibits in its formation the wisdom of the Deity. Every joint and sinew works harmoniously with each other, and upon the natural performance of every function depends the healthful action of the whole.

PAIN
Disorganizes the whole system, it prostrate the nerves, it relaxes the muscles, it weakens the joints, it interferes with the functions of every organ, it checks the free and healthy circulation of the blood, it paralizes the absorbents, and renders them unable to take up and replete the wasted form with sound material. From the very moment that this beautiful masterpiece of God becomes afflicted with pain, the influence is experienced throughout the whole system, no matter in what particular locality the pain may originate; whether in the Head, the Feet, the Back, the Knee Joints, the Elbows, the Teeth, the Gums, or the Stomach; whether it arises from internal derangement, or is the result of external injuries, still the pain exercises its influence throughout every portion of the human system.—Not a nerve or a muscle escapes its prostrating influence.

INSTANT RELIEF FROM PAIN
Is the great desideratum of every individual who suffers its tortures, no matter how light or severe its paroxysms may be. No one can feel happy while suffering its torments.

RADWAY'S READY RELIEF
In a few seconds
WILL STOP THE MOST DISTRESSING PAINS.
Its effects are like electricity; it arrests the most distressing pains in a few seconds, its soothing, neutralizing and healthful influences thrill through every minute cell, membrane, and establishes the secretion of every gland in the system, subduing the most excruciating paroxysm of pain, and imparting strength and vitality to every organ.

NEURALGIA.
PAIN STOPPED INSTANTLY.
Radway's Ready Relief possesses an almost miraculous influence over the sharp darting pangs of pain of this cruel complaint. In a few minutes the pain-stricken sufferer experiences the delightful sensations of departing pain. It has cured thousands of cases in the city of New York, where many of them had been brought almost, to death's door. The effects of the Ready Relief is to stop the pain immediately, to strengthen the nervous system, and supply the nerves with nervous energy and vitality, the loss of which is the chief cause of nervous pains.

DANGEROUS PRACTICE.
The use of Morphine, Strychnine, Aconitine, Belladonna Arnica, and other poisons are not only dangerous but cruel. The effect of these poisons is not to cure the disease, or to remove from the system the pains, *but to deaden the nerves, to weaken and stop the nervous energy, to paralyze the functions of the nervous system, and to destroy sensation.* If this practice is continued for any length of time, the patient will not only waste away, but the brain will become paralyzed, and the intellect destroyed.

RADWAY'S READY RELIEF
IS FREE FROM MORPHINE,
And all other dangerous and narcotic influence. To the weak and paralyzed nervous system it imparts life instead of death, and the pain is stopped by the healthy influence which Radway's Ready Relief imparts to the nerves, instead of the lifeless, sleepy and paralyzing effect which Morphine, and all other preparations containing this poison, produces on the system.

SICK HEADACHE.
Radway's Ready Relief will stop the most distressing pains in a few minutes, and prevent renewed attacks. It will cleanse and sweeten the stomach, and neutralize the poisonous acids of the system.

ALL BOWEL COMPLAINTS,
Diarrhœa, Dysentery,
Bloody Flux, Cholera Morbus,
Painful Discharges,
It relieves the most severe pains in a few minutes—checks the most distressing discharges, and
SPEEDILY REMOVES THE CAUSE.

RHEUMATISM.
PAINS RELIEVED IN FIVE MINUTES.
Radway's Ready Relief will stop the severe and excruciating pains of Rheumatism almost instantly. Persons are living in this city who, for months, were confined to their beds by Rheumatic pains, whose bones were unsound from top to toe, whose joints were distorted with painful swellings, that were relieved from all pain in 15 minutes by the use of Radway's Ready Relief. This is truth, and thousands in the city of New York, and hundreds of thousands in the United States, can answer for the truth of this assertion—we need no certificates of Cures—we publish no long list of names to prove the efficacy of Radway's Ready Relief, for the Citizens of almost every town in the Union, for the last four years, have tested it for themselves.

CHILL FEVER.
CHILLS STOPPED IN A FEW MINUTES—PAIN RELIEVED INSTANTLY.
Radway's Ready Relief acts like a charm in all cases of Chills and Fever. It breaks the chills immediately—warms up and invigorates with health and strength every organ and secretion of the system.

PAINS OF ALL KINDS.
Whenever you feel pain, apply Radway's Ready Relief—it is sure to relieve you in a few minutes. If you have pains in the Stomach, Intestines, in the Liver, Kidneys, Bowels, Joints, Bones, Radway's Ready Relief, taken either internally or applied externally, will in a few minutes stop pain and quickly remove its cause.

BEAUTY.
Complexion richly tinted with the bloom of health,
With skin as pure and fair as Parian marble,—
Soft and sweet as the fragrant rose—
Teeth as sound and white as alabaster,
Breath of sweetest fragrance, and lips of coral tint,
With flowing ringlets and glossy locks,
Luxuriant tresses dancing gracefully o'er the swan like neck
No dark repulsive spots to mar the pleasing picture,
Or to cast dull shadows o'er beauty's master piece.

RADWAYS MEDICATED SOAP.
Composed of the most delicious, rare and fragrant gums,
Of extracts, oils, and costly essences—
Of flowers, roots, trees, and oriental plants,
Possessing wondrous virtues o'er skin diseases.

TO THE COMPLEXION IT IMPARTS BEAUTY.
By cleansing the skin from all eruptive matter,
Makes clean the pores, gives action to the capillaries,
By which all poisonous humors are ejected,—
And a healthy action to the skin restored;
To the teeth it gives whiteness and prevents decay,
It makes the skin soft, sweet and smooth,
Transforms the most repulsive and disfigured visage,—
To a clear and beautiful complexion.

RADWAY'S CIRCASSIAN BALM.
Imparts nutriment to the hair,—
Makes it stong, glossy, rich and luxuriant,
Cleanses the scalp from dandruff,—gives action to the bulbs,
Fastens the hair upon the scalp, and forces it to grow—
Like guano to a barren soil, it makes it rich and productive,—
To dress the hair, make it smooth and glossy,—
Strong and beautiful, &c.
Radway's Circassian Balm is the "ne plus ultra."

HOOFLAND'S CELEBRATED GERMAN
BITTERS,
Prepared by Doct. C. M. Jackson,
AT THE GERMAN MEDICINE STORE,
120 Arch-st., Philadelphia.
Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.
These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.

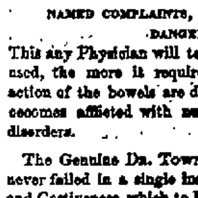

READ AND BE CONVINCED.
[From the Boston Bee.]
The Editor said, Dec. 3d: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."
SCOTT'S WEEKLY.
One of the best literary papers published, said, August 25: "Dr. HOOFLAND'S GERMAN BITTERS, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."
The Daily Sun says:—"It is one of the best medicines of the age for Jaundice and Liver Complaint."
Neal's Gazette says:—"Dr. Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser."
The Evening Bulletin says:—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."
The Daily News, July 24, says:—"A Medicine—We speak knowingly of Dr. Hoflaud's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the biliary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and to all invalids we should recommend it as worthy of their confidence."
The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed."
That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all billious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.
LOOK WELL TO THE MARKS OF THE GENUINE.
They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

A CERTAIN CURE FOR ALL PAIN MAY BE FOUND IN THE USE OF
PERRY DAVIS' VEGETABLE PAIN KILLER.
Opinion of the most prominent Druggists and Merchants of Cincinnati in its favor.
CINCINNATI, Oct. 26, 1843.
We the undersigned, Druggists and Merchants of this city, have been acquainted with and sold for 2 or 3 years past, an article of Family Medicine, known as PERRY DAVIS' VEGETABLE PAIN KILLER, and we would assure the public that in every instance, so far as we know, it has given the best satisfaction to the purchaser. We can recommend it to the public as an article of **Great Merit and Virtue:** indeed, we never knew an article of Medicine become so deservedly popular in so short a time, which is proved by the fact of its extensive sale, and constantly increasing demand.

A Word of Caution to the Public!
Dealers in Pain Killer are cautioned against buying or selling a spurious article of Pain Killer, manufactured by White & Co, of Buffalo, which is a worthless imitation and the pamphlets a "BASE FORGERY" which will appear by comparing them with the Genuine. "The certificates are copied verbatim." The proprietor of the Genuine Perry Davis' Pain Killer will prosecute any person, engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud." Many unprincipled persons, to deceive the public, and for the sake of gain, have applied the name Pain Killer or something similar to their own compounds such as Pain Destroyer, Pain Killing Compound, a real Pain Killer, &c. all of which have been got up on the reputation of Perry Davis' Pain Killer. The public are cautioned against these mixtures.
